

UNIPASS LOGIN

Logging in to Scottish Widows Platform using your Unipass Identity

Scottish Widows Platform now provides Origo's Unipass Identity Solution to enable advisers to securely and seamlessly sign-in (SSO) to the Scottish Widows Platform using their own Unipass credentials.

When logging in for the first time, you will need to map your Scottish Widows Platform username & password to your Unipass identity.

You may have more than one login for Scottish Widows Platform, for example, if you are also a Security User. You can only map one login to your Unipass identity so we recommend mapping the username & password you use the most.

A step by step process is outlined opposite to guide you through this.

You can apply for your own Unipass identity at www.unipass.co.uk/identity.

New to Scottish Widows Platform

Follow these steps if you have never used Scottish Widows Platform before.

- 1 You will have received your username and a token to set up your password via email.
- 2 Click the link to set up your password, you will then be asked to select your 5 numerical digit memorable pin.
- 3 Once you have successfully logged in to Scottish Widows Platform, your Unipass identity will automatically be mapped to your Scottish Widows Platform login details.
- 4 The next time you sign in, you can use the 'Login with Unipass' button.

Existing Scottish Widows Platform user

Follow these steps if you are already using Scottish Widows Platform.

- 1 Go to Scottish Widows Platform and login using your username, password & memorable pin as normal.
- 2 Once you have successfully logged in to Scottish Widows Platform, your Unipass identity will automatically be mapped to your Scottish Widows Platform login details.
- 3 The next time you sign in, you can use the 'Login with Unipass' button.
